

"Smart People Creating Smart Buildings"

## **ASSOCIATE BUILDING COMMISSIONING PROFESSIONAL FULL TIME CAREER POSITION OPEN**

Argo Performance, Ltd. is San Diego's hottest Building Commissioning Firm, and we are seeking ambitious individuals to join us and create an elite firm. The candidate will integrate their personalities and strengths with a unique group of people. All of whom share the same values and vision: "Foster a free-thinking culture of employee empowerment that enables them to provide our clients with uncompromising service and ingenious solutions." Opportunities with our firm are endless, for the firm is growing and evolving. We place high values on individual growth, client-employee satisfaction, giving back to society, work-life integration, developing relationships, and igniting passion.

Argo Performance, Ltd. believes that the company must work for its employees, and the byproduct is the employees will work for our clients. To achieve this philosophy, we do the following things. Pay a competitive salary, including performance-based advancement and bonus opportunities. Provide a 401k Savings Plan with matching. Offer a suite of insurances, including health, prescription, vision, and dental. Give a generous amount of vacation-personal time off and paid holidays. Argo Performance offers its employees educational and personal development opportunities.

## ARGO PERFORMANCE IS HIRING !

Never heard of Building Commissioning, please don't worry; we will teach you! Building Commissioning is the process that assures that a building's mechanical, energy, plumbing, and electrical systems correctly. A Commissioning Professional performs tasks such as design review, conducts construction inspections, performs tests on equipment and systems, and analyze performance data. The work is a nice balance of "hands-on work" fieldwork and analytical "desk work." Expect to work in an office and in the field.

We commission the following systems

- Building Automation Systems
- HVAC.
- Electrical Distribution
- Net Zero and Carbon Neutral Buildings
- Lighting and Lighting Controls
- Solar and Wind-Powered Renewable Energy
- Domestic and Industrial Plumbing
- Emergency Power Generation
- Energy Storage and Batteries
- Security and Access Control Systems
- Fire and Life Safety Systems
- Intelligent Cameras and CCTV

Applicants must be one of the following requirements:

- Bachelor's degree in a technical major
- Associates degree in a technical major
- Military Training in a technical discipline
- Apprenticeship or Trade School
- Three years of work experience in a technical industry,

We are open to hiring applicants with technical backgrounds that desire a change of industry.

- Applicants must have the following traits
- Eagerness to grow
- Technical aptitudes
- Skills to work mobile and unsupervised
- Be well organized
- Enjoy troubleshooting and providing solutions
- Desire to perform job assignments that involves a combination of office and field work
- Able to work safely on construction sites
- Valid driver's licenses and transportation
- Have computer skills
- Good Communication skills
- Most of all, the aspiration to do something unique and special!
